It is a wonderful asset to our community.

You all do a great job

For a town our size, I believe we have a great recycling program. Beartooth Industries does a wonderful job of facilitating and maintaining a clean orderly facility.

We are so very grateful to the guys at the recycling center and all that they do to promote recycling in our little community-- and do it with such an amazing attitude! :)

I love that individuals with disabilities are in charge of the sorting. What ever changes that might need to be made to continue the viability of recycling, please do not change that.
