

Parks and Recreation District: Pool

The 2015 Comprehensive Parks Plan identified and outlined many of the priorities for maintaining and improving Parks and Recreation in the City. One of the major issues identified in the Parks Plan is the state of the City Pool. Many parents and residents have expressed concern that if the pool can no longer function that many kids will not learn how to swim and will not have an important summer activity.

The Red Lodge City Pool is a widely utilized asset of the community. The table below shows the number of people who purchased single day passes (General Admission and Lap Swim), swimming lessons, and multi-day passes during the 2016, 2017 and 2018 pool seasons.

The Comprehensive Parks Plan can be viewed at the City website:

Pool Use Statistics for 2016, 2017 and 2018

	2016	2017	2018
General Admission	1950	1792	1847
Lap Swim	119	75	63
Lessons	101	66	26
15 Day Pass	43	44	46
Individual Season Pass	6	12	0
Family Season Pass	23	17	7

Accessibility Issues

- The city pool does not currently meet requirements for accessibility established in the Americans with Disabilities Act (ADA). In addition to addressing maintenance issues, renovation of the pool would bring it into ADA compliance, allowing more people to use this city resource.
